ANNEX A – SUMMARY OF REQUIREMENTS

1. Background

The NATO Communications and Information Agency (NCI Agency) is responsible for the in-service support of major NATO Communications and Information Systems under the management and monitoring Network Services and IT Infrastructure (NSII) Service Lines (SL), located at SHAPE (Mons, Belgium).

The NCI Agency has a requirement to procure and manage a Global Mobile and Fixed Telephony Service plus hardware from a single supplier. This is to enable NATO to communicate globally across the twenty eight member Nations and to manage these services centrally.

2. Scope

This Statement of Work covers the technical support required to operate the NATO wide Global Mobile and Fixed Telephony Services. The supplier is to offer global voice and data services at geographically dispersed locations being able to operate and support this service over the 28 NATO member Nations. There will be an optional requirement for approximately five thousand of these mobile devices and the management of these devices. The classification will be NATO UNCLASSIFIED.

Also within this contract, there is a requirement to supply Fixed Telephony for approximately thirty thousand users NATO wide. For this Fixed Telephony portion of the contract, the supplier will supply and support Points of Interconnects (POI) at three geographically dispersed locations which will be where NATO's Data Centre's (DC's) are located. These interconnects will replace all PSTN interconnects and E.164 numbering scheme. The required technology for these POI will be SIP (Session Initiation Protocol) Trunks. The classification for this service is NATO UNCLASSIFIED.

The Statement of Work defines Contractor tasks and deliverables for providing Contractor Logistic Support (CLS) .The hardware (Mobile Handsets) which is to be delivered by the supplier will not form part of the NATO inventory. The following CLS services are covered by this SOW:

- a) CLS programme planning and management;
- b) procurement, delivery and management of Mobile and Fixed Telephony Support Contracts;
- c) procurement and delivery of Mobile Devices;
- d) procurement and delivery of software and software licenses (mobile devices);

- e) provision of hardware maintenance;
- f) provision of software maintenance;
- g) provision of on-site technical support at Core sites;
- h) provision of remote technical assistance (24x7);
- i) CLS performance reporting and reviews.

3. Type of Contract

The Contract will be firm fixed price contract for mandatory services to be delivered together with services (referenced at b), c), d) and g)) to be listed in the form of a catalogue of services. The catalogue of services portion will define a set of basic services to be ordered by the Purchaser through the issuance of separate Purchase Orders.

4. Period of Performance

The Contractor performance period will be one year starting award, followed by four optional years of CLS as specified in the Schedule of Supplies and Services (SSS).
